

EXERGY APPOINTS SYLVAIN BROGLÉ' AS PUBLIC RELATIONS, BUSINESS ADVISOR AND AMBASSADOR

Olgiate Olona (Va), Italy, 9th September 2024 – Exergy International, a global provider of clean energy technologies and a leader in next-generation geothermal ORC power plants, has established a collaboration with Sylvain Broglé as Public Relations, Business Advisor and Brand Ambassador. In this role, Sylvain will support Exergy in strengthening business relationships with industries, investors, developers, and governmental institutions worldwide. He will also identify new business opportunities, advise on the implementation of international strategies, and represent Exergy as a brand ambassador at major international events.

Sylvain Broglé is a mechanical engineer with an MBA from the University of California, Santa Barbara (UCSB), and brings over 40 years of experience in the international business arena. Throughout his career, he has led numerous multinational enterprises in the renewable energy and water sectors, specialising in EPC (Engineering, Procurement, and Construction) and business development. For the past 15 years, he has been dedicated to advancing geothermal energy initiatives worldwide, promoting and overseeing projects across the Caribbean, Central and South America, Europe, East Africa, the Middle East, and Asia. He has held key positions, including as the French representative for geothermal topics at IRENA GGA meetings, and has collaborated with organisations such as ADEME, Capgemini, and AFPG to launch a French risk mitigation fund for drilling risks. As the founder of the French geothermal cluster GEODEEP, he has promoted geothermal technology through forums, seminars, and webinars, and has supported EGEC as an export team leader while also serving as President of the International Geothermal Association (IGA).

Luca Pozzoni, General Manager of Exergy International, commented: "We are pleased to announce the start of our collaboration with Sylvain. His extensive experience, operational expertise, and broad network across both the public and private sectors will be invaluable in supporting Exergy's medium and long-term strategy. This partnership aligns seamlessly with Exergy's vision in the renewable energy sector, further enhancing its presence in the geothermal market."

Sylvain Broglé added: "I am delighted to take on this new role at Exergy, as I see a strong synergy between my expertise in business and institutional relations and Exergy's experience and position in the market, rooted in its strong technical know-how and innovative approach to geothermal and clean power generation solutions. This partnership offers a great opportunity to further develop Exergy's business and enhance its thought leadership and global presence."

ABOUT EXERGY INTERNATIONAL SRL

EXERGY INTERNATIONAL Srl is a leading provider of clean energy technologies. We are experts in the design, engineering and manufacturing of Organic Rankine Cycle (ORC) systems with the pioneering Radial Outflow Turbine. Exergy's proprietary technologies, covered by several patents, allow for highly efficient energy production via the exploitation of heat sources from geothermal, waste heat from industry, biomass and concentrated solar power. The EXERGY portfolio accounts for over 500 MWe and the second largest geothermal binary fleet worldwide. Exergy is part of the Chinese TICA Group, a leading integrated system and service provider in HVAC. From its headquarters in the north of Italy (Milan), Exergy exports and implements its technology worldwide with a particular focus on high growth potential markets.
